

## *To customers and friends of Evergreen...*

### Evergreen COVID-19 Update...

At Evergreen, we are thankful and fortunate to have been fully operational during the past 12 months as the Corona Virus pandemic surged. And now, although not without occasional set-backs, the virus is beginning to show signs of being under control.

Even though the pandemic continues to impact everyone, here at Evergreen we remain diligent and personally responsible toward the health and safety of both our customers and employees.

In the plant and in the office, we continue to be consistent with mask wearing, appropriate distancing, and a genuine concern for the benefit of all those around us.

We are operating at full capacity for all print, bindery and mail production as we continue to follow CDC Guidelines until this virus and the dangers it represents are effectively eliminated.

We support all efforts for good health and safety and continue to offer our print production services to all publishers.

With thanks—  
Evergreen Printing
